COMPANY PROFILE

About Us

Shivam International is a garment and home textile manufacturer and exporter based in Jaipur, India. Since our establishment in 2005, we have been supplying high-quality products to customers in Japan and Europe, building long-term relationships through reliable production, consistent quality, and transparent communication.

We combine modern manufacturing with traditional Indian craftsmanship, offering products that reflect careful workmanship, flexibility, and attention to detail.

Product Range

Woven Garments

Dresses; Tunics; Blouses; Shirts; Skirts; Pants; Jackets; Coats

Home Textiles & Made-ups

Quilts; Bed Sheets; Table Covers; Curtains; Café Curtains; Aprons; Handkerchiefs; Bags; Pouches

Specialty Products

- Natural dyed and printed garments & home textiles
- Recycled handwoven (Sakiori) garments & products

Our Expertise

We offer comprehensive product development and manufacturing services, including:

- Screen printing
- Traditional hand block printing
- Natural and azo-free dyeing
- Machine embroidery (10 machines with 15–20 heads)
- Hand embroidery
- Appliqué
- Patchwork
- Quilting
- Hand weaving
- Sourcing of handwoven Khadi and a wide variety of fabrics including cotton, silk, rayon, polyester, blends and knitted fabrics

Sustainable Manufacturing

Sustainability has always been an important part of our manufacturing philosophy. We upcycle, recycle and repurpose textile waste generated during production into handwoven fabrics, garments and lifestyle products, helping reduce waste while creating unique textiles with added value.

Production Facilities

Our factory is equipped with modern production facilities including:

Industrial sewing machines; Needle detectors; Steam pressing equipment; Cutting machines; Fabric inspection tables

Sewing Capacity

For small and medium production runs, manufacturing is carried out through our in-house stitching line.

For larger orders, we work with carefully selected long-term production partners. Together we operate six stitching lines with approximately 150 sewing machines.

Monthly Production Capacity

Approximately **20,000–30,000 pieces**, depending on product style and construction.

Quality Control

Quality control is carried out throughout every stage of production, beginning with raw material inspection and continuing through cutting, sewing, finishing and packing.

When required by the customer, finished goods are also inspected by **customer-appointed inspection agencies** prior to shipment.

Our Commitment

Quality

As a design-oriented manufacturer, we place great importance on craftsmanship, product consistency, and meeting each customer's quality expectations. Every order is produced with careful attention to detail.

Communication

We believe that clear and timely communication is essential for successful long-term partnerships. Our customers receive regular production updates from material sourcing through shipment, ensuring transparency throughout the manufacturing process.

Research & Development

Continuous improvement is an important part of our work. We regularly explore new fabrics, printing techniques, embroidery methods, garment construction, and sustainable manufacturing practices to develop products that combine innovation with traditional craftsmanship while meeting the evolving needs of our customers.
